INTERCOLLEGIATE HONOURS WILL BE FINALLY DECIDED AFTER PHENOMENAL SEASON

OTTAWA VS. MCGILL CLOSING FIXTURE OF SEASON

Veteran McGill Septette will Finish up its Season Tomorrow Night at the Arena — Much Excitement Promised

Ottawa College and McGill clash to-morrow night in what promises to be one of the most exciting if not the closest games ever played on the Arena ice. The game in Ottawa on Tuesday night was full of thrills and hardly resembled a meeting of the aged mothers' sewing circle so the teams are expected to pull off something exciting on Friday night. The McGill septette although still feeling the effects of the hard game in Ottawa will practice this afternoon and expect to have the sore spots worked out by to-morrow. Ramsay Rankin, the gigantic defence man although slightly damaged, will be on hand again to play the game of his life. The big cover-point had a couple of ribs slightly bent in a collision with Poulin and it was thought the team would be without his services for the deciding game but it was found on examination that the injury was not as serious as it was at first thought so he will be seen in action again on Friday night for the last time this year. McGill by reason of the win in Ottawa will go

on the ice with a five goal lead and unless something happens to upset the dope should finish with a comfortable margin. This means winning the Intercollegiate Hockey Championship in a clear-cut and decisive fashion. The team this year has a record almost unequalled in the annals of Canadian hockey, having been on the pick of the teams on either side of the line, and so far have a clean record of wins in the Intercollegiate. It is some time since the men of Old McGill have had the chance to turn out and cheer the men on to a hockey championship and a large crowd will probably take the opportunity of doing so to-morrow night. Doug, Armstrong and his brass band rosters club will be on hand to serve up the noise in proper style, the management of the Arena having nailed down the roof more securely in anticipation of this. The line-up will probably be the same as for the last game but will not be a finally announced until after to-day's practice. Supporters of the team will be able for the first time this year to hail the Intercollegiate Hockey Champions of Canada. Excitement and thrills to

"I never dreamed that my son could wish to marry an actress!" said a proud mother.
"Now, ma, don't take on so," besought her undutiful son. "She isn't really an actress; she only thinks she is."

"Your daughter is improving," said a music teacher, "but when she gets to the scales I have to watch her pretty closely."

"Just like her father!" said the mother. "He made his money in the grocery business!"

QUEEN'S CONDEMNS REFEREE'S DECISION

Journal Thinks McGill Got Raw Deal

With regard to the intercollegiate assault at arms and the decision handed to McGill in the case of Hodge vs. Reid, the Queen's Journal comments as follows:

"Queen's had no complaint to make over the decisions of the officials, though in Hagey's bout an extra round would have been more satisfactory, but in the middle-weight wrestling between Hodge (McGill) and Reid (Varsity), Referee Lee gave a decision in favor of the latter that was so bad it surely never would have passed the Board of Health."

What the Journal says about Crossley's bout should be of interest to McGill.

"158 pound—Crossley (McGill) met Sutherland (Varsity) in this bout. The former appeared immaculate in white jersey, trousers, socks and shoes. Sutherland looked like Battling Nelson. Crossley was the champion of the Public Schools of England. He is a perfect English gentleman, a thorough sportsman and an excellent boxer. While Sutherland was pirouetting in the centre, Crossley sent over a haymaker and Sutherland went down like a log. In the finals Moxley met Crossley who was tired after the afternoon's bout. "Jeems" sent in a swift jolt. Crossley took a minute to recuperate. Then he came back and chased Jim around the ring but in an attempt to put him to sleep he made a faux pas. James, quick as a flash let fly an uppercut and Crossley went down with a terrific thud. The seconds carried him off. The referee gave the decision to Moxley. The crowd hissed."

SENIOR PRACTICE TO-DAY AT FIVE

The senior hockey squad will turn out at the Arena at 5 o'clock today for a good stiff hour's practice. Members of the squad are requested to be in uniform on time.

DON'T FORGET TO-MORROW'S GAME! A THRILLING CLIMAX TO AN UNPRECEDENTED SEASON.

MCGILL INSTRUCTOR COMMENTS HIGHLY ON THE RECENT MEET

Mr. Jacobm Thinks Boxing and Wrestling Are Coming Into Their Own

Mr. Jacobm's impressions of the Boxing, Wrestling and Fencing Tournament which we are printing below should put an end once and for all to the idea that our representatives because they did not win the championship, made rather a poor showing in Toronto. No one with an adequate idea of the situation could have expected premier honours this year. The only thing which Mr. Jacobm has forgotten to mention is the great debt which McGill owes to the three instructors who have given themselves so enthusiastically and efficiently to the work. We refer to Messrs. Smith, Jacobm and Rainondi.

"Undoubtedly as good an exhibition of true sportsmanship as I have been fortunate enough to see. The competitors in every class showing their love of fair play and true amateur spirit. Our team is to be congratulated on their splendid performance. One can hardly believe that with a team practically comprised of 1st year men, we should have 6 men in the finals. In the fencing, Wickenden, who only started fencing two months ago, lost his bout with Tower by one point. Bone, our 115 lb. boxer, was unfortunate in getting a hard blow that dazed him or would have won by 50 points. He gave a splendid exhibition of scientific boxing and won the admiration of all present. In the Way—Donnelly bout, I could not have picked a winner even at the end of the 4th round. Donnelly, who is one of the best of fellows as well as one of the best boxers the Club has had, knocked out his first opponent in the 1st round. In his bout with Way he was prevented by the referee from doing any infighting, as Way would clinch as soon as Donnelly came near and the rule was that there be no hitting in the clinches. This is a ridiculous interpretation of the rule. Because a man puts his arms around your neck

(Continued on page 2.)

MOGUL EGYPTIAN CIGARETTES

There are very few countries where tobacco of some kind cannot be produced.

But some of this tobacco is scarcely the kind that you would care to smoke.

It's only in dry tropical countries like Turkey, where there are no early autumn frosts, that the best tobacco is grown.

MOGUL Cigarettes are made from the choicest selected Turkish tobaccos and blended by expert tobacco blenders.

MOGULS are sold with cork tips, in boxes of 10 for 15c.

A DEMAND OF UNIVERSITY SPIRIT

The period of annual elections is at hand. Candidates are
being discussed and platforms are being thrashed out on
every side. But all this preliminary "campaigning" will
soon be over and the undergraduates will be called upon to
express their opinion at the polls.

As a member of a regularly organized university com-
munity, it is one of the first duties of an undergraduate to
study the issues at stake in the annual elections and to
form an opinion on the respective merits of the candidates
nominated. In each faculty there is to be elected a president
who will figure on the Students' Council and have a voice
in determining the policy of the whole student body and the
disposition of its club funds. Tomorrow the elections take
place in Applied Science. As the biggest faculty in the
University, Applied Science can be depended upon to influ-
ence student policy rather considerably. It is to be sincerely
hoped that the undergraduates in Applied Science turn out
in large numbers and register a representative opinion. It
will be interesting to note the percentage of undergraduates
that will actually cast their votes.

EDITORIAL NOTE.

The hockey season will come to an auspicious end tomor-
row night at the Arena. With Ottawa here in the last of
the home and home series, McGill men will have the last
chance of seeing the Canadian Intercollegiate Champions of
1912 in action. All up for the closing athletic event of the
season!

CORRESPONDENCE

Montreal, Feb. 28, 1912.

Editor McGill Daily.

Dear Sir:—In reply to the letter of
Mr. J. C. Davis which appeared in
Wednesday's issue, I beg to call at-
tention to the unfounded statement
which reads as follows: "The Stu-
dents' Council found that abuse had
been made of the privileges granted
in the past regarding uniforms."

This is absolutely erroneous. The
Students' Council did not consider
that any wilful or intentional abuse
had been committed along these lines
by the players or manager of any
athletic club. In fact, no such state
of affairs was ever suggested. What
the Students' Council did consider,
was that the expense involved in
outfitting teams was rather heavy
and also the system by which play-
ers were supplied with absolutely
everything was endangering to some
extent our spirit of amateurism. But
in no case could the heavy expen-
diture be attributed to extravagance,
or mismanagement on the part of
those entrusted with the funds of
the respective clubs.

The Students' Council, therefore,
deemed it well to appoint a commit-
tee to look into this matter and to
report what articles in considered
should be supplied to athletes play-
ing for McGill.

Inasmuch as the letter in question
casts a slur on previous manage-
ments of McGill teams, I would like
to call your attention to the fact
that such a suggestion finds its
origin in Mr. Davis himself. I am,
Yours sincerely,
JAMES C. LEE.

Montreal, Feb. 28, 1912.

The Editor, McGill Daily.

Dear Sir:—I notice a letter in yes-
terday's Daily by Mr. J. Davis in
which he appears to insinuate that
Mr. MacNaughton is so confident of
election at the forthcoming pool that
he is already giving vent to heroics
on the subject of what he will or will
not do. Being the author of the art-

icle to which Mr. Davis takes ex-
ception, I feel it my duty, since Mr.
MacNaughton obviously cannot reply
in person, to call Mr. Davis' atten-
tion to the wording of the sentence
in question. It is as follows: "With
regard to the question of athletic
outfits, he is in favor of having the
members of teams supplied with out-
fits." Surely it is permissible for
Mr. MacNaughton to express an op-
inion on the subject in a perfectly
general way, especially by backing it
up by giving his reasons.

Thanking you for space, I am,
Yours sincerely,
R. E. L. HOLLINSEAD.

MCGILL INSTRUCTOR

(Continued from page 1.)

and roughs it up you are not allow-
ed to hit him. Can one imagine any-
thing more stupid? Undoubtedly
clinching should be made a foul. If
a man clinches he should be caution-
ed once and disqualified on the second
offence. Crosley's opponent clinched
him around the legs several times
during their bout and Crosley had
to patiently wait until the referee
ordered "break." If they want to be
champion clinchers let them take up
wrestling. Forbes won his two bouts
handily. He is clever, cool and
plucky, in fact he is a Forbes. His
brother, Stewart was at the ring-
side, and it was amusing to see him
so excited when one remembers what
a cool performer he always was.
Page is clever, but not yet rugged
enough for the game, but he is made
of the right stuff and has grit to
burn. Davison of Varsity, who beat
Mustard has been styled the class-
ified boxer in the amateur ranks to-
day. Crosley earned a reputation
for himself in his bout with Suther-
land, who is a tough proposition.
He worked hard, showed pluck and
promise. It was one of the prettiest
fights I've seen in ten years. In his
second bout he fell over or stepped
on the lower rope and fell, shaking
himself severely and did not do him-

self justice after.

"Our wrestlers showed cleverness
and speed. I did not see all the bouts
but I saw Hodge and Reid. It ap-
peared to me that Hodge was un-
lucky. Ewart and Roberts (Queen's)
put up a clever bout and pleased the
spectators greatly. MacDougall was
evidently out of condition. Mr. Smith
could give a better account of the
wrestling. It is quite evident the
Boxing, Wrestling and Fencing Tour-
naments is going to be one of the
athletic features of the year and
these sports are going to come into
their own. There is no better phys-
ical or moral training than boxing
and wrestling. Something will have
to be done in regard to the interpre-
tation and enforcing of the Intercol-
legiate Rules of Boxing and Fencing,
some changes may be necessary. In
boxing a man should be out if he
cannot continue. The rule allowing
a man to fight after being knocked
out is absolutely wrong and danger-
ous. In wrestling some changes
should be made. Regarding officials,
there should be two time keepers,
seated apart, or an automatic time
keeper. I am of the opinion that ad-
vice from older heads than the stu-
dents could be used with advantage
in making and changing rules, etc.,
and would suggest an Advisory
Board, consisting of 3 or 5 men
who have been athletes of the highest
type; preferably, but not necessarily
college graduates. Names that occur
to me just now are: Dr. Clifford
Jack, Mr. James Taylor, both of
the M. A. A.; Prof. McKeegan of
McGill; Joe Wright, who refereed
the boxing at Toronto, and Percy
Molson. It would be easy to suggest
20 names to choose from, experienced
athletes and absolutely square. If
we can hold our team together for
next year we should win the cham-
pionship. Our fellows will have to
train for a longer period and take
special muscle developing exercises.

as Queen's and Toronto certainly
had the stronger men; we had more
skill, but to win science must be
backed with power."

W. J. JACOME.

SCIENCE UNDERGRAD
ANNUAL ELECTIONS
MANY CANDIDATESOfficers to be Chosen To-
morrow—Two Positions
by Acclamation

The Undergraduates' Society of
Applied Science will elect its officers
tomorrow. The outcome of the polls
is the subject of considerable dis-
cussion among the adherents of the
rival camps.

Following is the complete list of
candidates nominated for the various
positions:

President—J. T. K. Crossfield, J.
R. Donald, W. G. Mitchell.
Vice-President—K. A. Reeder (ac-
clamation).
Secretary—Bruce Ross, C. H. Keep-
ing.
Treasurer—A. Ribedeneyra, H.
Stanley.
Assistant Secretary—D. S. Cole,
H. Danbury, J. B. Sterling.
Reporter—H. F. Cole (acclama-
tion).

MATRIMONY IS APPROVED
AT COLORADO UNIVERSITY

Chancellor Makes Generous Offer

At Colorado they rather encourage undergraduate marriages. In this connection there have been many spirited controversies at some of the Western colleges with varying results. The formation of married men's clubs and the institution of married men's dormitories are not regarded as at all out-of-the-way, but the latest development at Colorado marks an epoch in the movement. The Chancellor has announced that he will marry all undergraduates free of charge and in addition will procure their marriage licenses for them.

Varsity defeated Queen's at curling last Saturday at Toronto.

When an M.D. says
"A Little Stimulant"
He Means 'Perfection'

This led to difficulties in mining, as the workings increased in depth. In 1888 a large company succeeded in getting control and carried on mining by a careful scientific system which has proved wonderfully successful. The speaker contrasted the management and financing of this company with those of mining companies on the continent. The value of shares of the De Beers Company is many times their par value, while the value of property and equipment greatly exceeds its capital. The companies in South Africa mined millions of tons of "blue ground" and spread it out on large fields to decompose by weathering from six months to two years, after which the diamonds are extracted by concentrating in an ore-dressing plant. The final extraction is carried out on grained tables instead of by hand as formerly.

Dr. Porter described the labor conditions in Africa, giving interesting accounts of his experiences while at Kimberley Mines. A large number of splendid slides, illustrating the address, were then shown and explained, before Dr. Porter spoke of the famous diamonds of the world, including the Kohinoor, Cullinan, Hope, etc.

The members had an opportunity of examining Dr. Porter's private collection of diamonds and a fine set of models of the great gems.

Mr. Gass moved a hearty vote of thanks to the speaker, seconded by Mr. Thompson.

Mr. Gass was elected to represent McGill at the coming meeting of the Canadian Mining Institute in Toronto.

There being no further business the meeting adjourned.

Several women in the gymnasium classes at Minnesota have expressed a desire to take up cross country running and track work and a special class will be started soon.

"I was very sorry to hear of your wife's death, Isaac. But she was a great age, wasn't she?"

"Ninety-four last May, zur. We made sure as 'er'd live to see 'er 'undredth birthday, but it was that last spell of cold weather wot nipped 'er in the bud."

"Waiter!" said an absent-minded professor. "Yes sir." "If I have dined, bring me the bill. If I haven't bring me a steak and mushrooms!"

ANNUAL REPORT OF UNIVERSITY

FACULTY OF LAW.

There were in the Faculty during the session of 1910-11, sixty students of whom five were partial students.

The new courses which have been added during the last few years in contracts, damages, evidences, joint stock companies and municipal law, have necessitated some rearrangement of the curriculum. The courses in contracts and damages, and in international law, public and private will, in future, be given to the students of the First and Second Years together, instead of to Second and Third Year students. This will somewhat lighten the work of the Third Year, which has been unduly heavy, and will make the quantity of work required in the three years more nearly equal.

By the generosity of Sir William Macdonald, two of the graduates were provided with travelling scholarships, namely, Mr. Louis Pitch and Mr. E. J. Waterston.

AFFILIATED COLLEGES.

The McGill University College of British Columbia, at Vancouver, with a branch at Victoria, might well be called an incorporated, rather than an affiliated, College of the University, as the students at these two institutions take the same courses, cover the same ground and pass the same examinations as the students of McGill. At Vancouver instruction is given up to the end of the third year in Arts, and the second in Applied Science; at Victoria two years' work in Arts can be completed.

The following table shows the number of instructors and of students in each of these colleges for the session 1910-1911:—

	Professors.	Students in Arts.	Students in Science.
Vancouver	14	118	32
Victoria	6	28	—
	20	146	32

THE GRADUATE SCHOOL.

The Committee of Graduate Studies, with which the administration of the Graduate School largely rests, is at present composed of the following

ing nine members:—Professor James Harkness (Chairman), Dean Adams, Dean Walton, Dr. Barnes, Dr. Colby, Professor Durley, Professor Mackay, Dr. Walter and Dr. Macmillan (Secretary). Twelve meetings of the Committee were held during the year.

At the end of last session, Dean Adams, owing to his many other duties, resigned the chairmanship of the committee for five years—since the establishment of the school in 1906. To the varied interests of the School he devoted himself loyally and unsparingly, and to his good judgment and wise initiative the School owes in a large measure its uninterrupted development, usefulness and prosperity. The Committee on Graduate Studies has placed upon its records the following minute:—

"The Committee on Graduate Studies desires to record its warm appreciation of the great services rendered to it, and through it to the University, by its first chairman, Dean Frank D. Adams, to whose devotion and energy the Committee owes in a great measure its origin, and to whose guidance the Graduate School is largely indebted for the high degree of success to which it has attained. The Committee records with gratitude its sense of the self-sacrificing zeal with which Dean Adams placed his services at their disposal."

The following tables present in summary form considerable information concerning the number and classification of students during six years since the establishment of the School, the birthplace of students, the colleges represented, higher degrees conferred, etc. Table I. shows the number of students has steadily increased. The number of students registered in the School this session is 110, the largest number enrolled since the opening of the School. Table II. sets forth in comparison with previous academic years the chief subjects of study of students in the School. The cosmopolitan character of the school is indicated by the fact that less than one-half the entire number is from the Province of Quebec. Table IV. divides the students in the School into two classes—those who are graduates of McGill and those who are graduates of other colleges. This table shows a steady comparative increase of students from other colleges. This increase is greatest among candidates for the degree of Doctor of Philosophy, 65 per cent. of whom are this session graduates of other colleges. Table V. presents statistics showing the colleges and universities represented by graduates in the School. Table VI. shows the number of higher degrees conferred during the last five years, and Table VII. records the chief subject of study in which these higher degrees were conferred.

STUDENTS IN MUSIC PLEASE LARGE CROWD AT SPECIAL CONCERT

Phenomenal Showing of Young Musicians Features Programme

The concert given in the Royal Victoria College Hall on Tuesday evening, Feb. 21st by the students of the Conservatorium proved most enjoyable, and despite the weather the hall was crowded. The first number on the programme, Allegro in C Minor, Bach, from concerto for two pianofortes and string orchestra was very well played by the Orchestra, under the direction of Dr. Perrin, with Miss E. Gillis playing first and K. Mackenzie second pianoforte. This was followed by Romance in C—Sibelius, played by the Orchestra only. Each of the solos—Zuleika—Mendelssohn, sung by Mrs. Hall, and Collette—Chaminade, by Miss La Mothe, were very pretty. Miss Augusta Schmidt played a pianoforte solo, The Suite in D Minor by D'Albert, comprising Gavotte, Musette and Gigue, exceptionally well. In the second movement of the Polonaise in E Major by Liszt, Mr. Hugh McEachran showed splendid technique. Of the three movements, Allegro Piacevole in E Minor, Lorchetto in C, and Allegretto in E Minor and Major, of the Serenade for String Orchestra—Elgar, perhaps the most enjoyable was the second. Miss Rose Jeanne Ross, who gave as violin solo Allegro from Concerto in D Minor—Wieniawski, and Miss Evelyn Schmidt two solos for violincello, being Traumeri—Schumann and Vito (from Spanish Dances)—Popper, are to be complimented on their artistic playing. "Eventide" from Suite in D Minor for pianoforte and string orchestra—G. J. Bennet, was followed by three songs: "In questa tomba oscura—Beethoven"; "Allah"—Chadwick, and "Autumn Winds"—

—Grieg, sung by Miss E. Goldstein, and showed the power of her voice. The final number Allegro in G Major (from Serenade for String Orchestra)—Mozart, brought to a brilliant close a most enjoyable evening.

STANLEY DREWITT
With Miss Horniman's Co. at His Majesty's Theatre.

ANNOUNCEMENTS

UNDERGRADUATES' ORCHESTRA.
The McGill Undergrad Orchestra will meet at the Oliver Church, cor. Guy and Dorchester, on Friday evening. Supper will be served to the members of the orchestra at 6 p.m. and then selections will be rendered until 8 p.m. All members of the Orchestra are requested to be on hand at 6 p.m.

SEATS FOR GAME.
Seats for the final intercollegiate hockey game will be on sale at the Arena today at one o'clock.
